

FLEXIBLE SLEEVING TECHNICAL DATA – Ø50

Product description: Yellow flexible plasticized PVC ducting Ø50 – GTDUCT-DN2025-50M.

Applications: Protection for plastic or metallic installations (water, gas, electricity) not exposed to sunlight or subject to weather.

Marking: #000# GASTITE www.gastite.co.uk GAS #001# GASTITE www.gastite.co.uk GAS #002#

Characteristics:

- Used material: plasticized PVC
- Minimum operation temperature: -40°C
- Maximum operation temperature: 60°C
- Weight: 415g/m
- Efficient protection
- Easy installation
- Easy to handle
- Economical

Dimensions and tolerances:

- External diameter: 50mm ± 1mm
- Internal diameter: 46.5mm
- Max wall thickness: 3.5mm
- Length of the coil: 50M with a tolerance of (0, +1)

Storage:

- The ducting should be stored in covered areas and always protected from sunlight until used.
